Dear Sir:

I have your book + appreciate having it. Do you put there in any connection with the JFK assassination + Hal Hunter & Valerie Percy whose father also was murdered + also Vice Pres. Lyndon + others last May? Might lead more + more to the conclusion that there did exist a conspiracy of which oswald & others are a part or rather that's what's behind oswald's acted. How do you feel about the Kennedy release in all books of support by members on the subject & the lack of support & any help on these from them? All these matters are more mystical than ever.

I also appreciate the beauty + grace & watercolor. Please let me know when your book about them is done? They are my favorites among fowl (and besides owls) I assume you mean geese, ducks + swans.

Best wishes + hope you meet with great success,

Peter Lemme
